

Contents of Volume 33 (1992)

Number 1, July 1991

Modified importance sampling for performance evaluation and sensitivity analysis of computer simulation models, <i>R.Y. Rubinstein (United States / Israel)</i>	1
Design of function-generating mapping networks by interactive neural-network simulation, <i>G.A. Korn (United States)</i>	23
Computing some elementary functions of a complex variable, <i>P. Midy and Y. Yakovlev (France)</i>	33
A solution technique for random and nonlinear inverse heat conduction problems, <i>R. Riganti (Italy)</i>	51
2-D transonic calculations on a flow-based grid system, <i>R.M. Barron and R.K. Naeem (Canada)</i>	65
Book Reviews, <i>W.F. Ames and C. Brezinski (United States / France)</i>	69
News of IMACS	87

Number 2 (Collected papers of the IMACS / IFAC Workshop on Computer-Aided Control Systems Design), August 1991

Preface, <i>V.I. Venets (USSR)</i>	111
Support system for processes of designing organizational mechanisms, <i>V.N. Burkov, S.P. Kolesnikov and A.V. Schepkin (USSR)</i>	113
LATOR — professional database management system for local networks, <i>J. Demetrovics, Gy. Gyepesi, L. Hannák, T. Remzső and F. Urbánszki (Hungary)</i>	121
Information system for insurance companies (ABLAk), <i>J. Demetrovics, L. Hannák, A. Heppes, T. Remzső and F. Urbánszki (Hungary)</i>	129
R-technology and CASE: analysis and perspective, <i>W.K. McHenry (United States)</i>	139
Moduli-based language for building problem-solving scenarios, <i>G. Simov and I. Popchev (Bulgaria)</i>	151
Computer-Aided Control System Design for drilling systems, <i>W. Wajs and M. Capik (Poland)</i>	165
Ada: progress in the West and the East, <i>P. Wolcott (United States)</i>	173
Book Reviews, <i>W.F. Ames and C. Brezinski (United States / France)</i>	175
News of IMACS	185

Number 3, November 1991

Comments on decouplings and Euler's one-step schemes, <i>A. Singh (India)</i>	197
A numerical approach to evaluate the describing function (DF), <i>F. Ballesteros (Spain)</i>	205

Energy control of the numerical solutions of an elastic oscillator, <i>I-S. Liu and I. Suliciu (Brazil / Romania)</i>	209
A survey on computer generation of some classes of stochastic processes, <i>I. Popescu and I. Vaduva (Romania)</i>	223
The numerical solution of random initial-value problems, <i>D.G. Harlow and T.J. Delph (United States)</i>	243
Book Reviews, <i>W.F. Ames and C. Brezinski (United States / France)</i>	259
News of IMACS	263
 <i>Number 4 (Collected papers of the IMACS / IFAC Workshop on Computer-Aided Control Systems Design, December 1991)</i>	
Organization of computer-aided design systems, <i>E. Artamonov (USSR)</i>	275
A framework for research of information processing hierarchy in enterprise, <i>S. Gudas (Lithuania)</i>	281
Managing the development of large-scale systems, <i>A.V. Karibskii (USSR)</i>	287
On some applications of form management, <i>P. Kerékfy and T. Remzső (Hungary)</i>	295
Computer-aided design of the optical devices control systems based on the language of algebraic computations FLAC, <i>V.L. Kistlerov, P.I. Kitsul and B.M. Miller (USSR)</i>	303
Structured Analysis Technique and Technology in control systems design, <i>V. Kovács and G.L. Kovács (Hungary)</i>	309
Using Petri-nets for data processing systems analysis and synthesis, <i>V.V. Kulba and A.R. Shvetsov (USSR)</i>	317
Design of medical information system for dynamic control, <i>A.R. Kulmagambetov and I.R. Kulmagambetov (USSR)</i>	323
Computer-aided design of distributed databases, <i>I.A. Uzhasov (USSR)</i>	331
Logical control of flexible integrated manufacturing, <i>S.A. Yuditskiy and S.S. Pokalev (USSR)</i>	339
News of IMACS	349
 <i>Numbers 5-6 (Selected papers of the MSSA / IMACS 9th Biennial Conference on Modelling and Simulation), April 1992</i>	
Preface, <i>D.G. Mayer and A.J. Jakeman (Australia)</i>	357
Managing Natural Systems	
A systematic approach to modelling the dynamic linkage of climate, physical catchment descriptors and hydrologic response components, <i>A.J. Jakeman, G.M. Hornberger, I.G. Littlewood, P.G. Whitehead, J.W. Harvey and K.E. Bencala (Australia / United States / United Kingdom)</i>	359
A metapopulation simulation model for assessing the likelihood of plant and animal extinctions, <i>H.P. Possingham, I. Davies, I.R. Noble and T.W. Norton (Australia)</i>	367
Embedding a rangeland simulation model within a decision support system, <i>J.A. Ludwig, R.E. Sinclair and I.R. Noble (Australia)</i>	373
Habitat modelling and simulation for nature conservation: A need to deal systematically with uncertainty, <i>T.W. Norton and J.E. Williams (Australia)</i>	379

Induction of sets of rules from animal distribution data: A robust and informative method of data analysis, <i>D.R.B. Stockwell and I.R. Noble (Australia)</i>	385
Evaluation of field sampling strategies for estimating species richness by Monte Carlo methods, <i>H.M. Neave, R.B. Cunningham, T.W. Norton and H.A. Nix (Australia)</i>	391
Simulation of animal cell metabolism, <i>J.P. Barford, P.J. Phillips and C. Harbour (Australia)</i>	397
Managing Agricultural Systems	
The development and use of models and expert systems to aid the control of crop pests in China, <i>Z.R. Shen (China)</i>	403
Optimising cultural practices for grain sorghum in relation to climatic risk at three locations in the United States, using the SORKAM model, <i>T.J. Gerik, L.J. Wade, W.D. Rosenthal and R.L. Vanderlip (United States / Australia)</i>	415
A simulation model to estimate effects of farm management and pest populations on yields of cultivated mushrooms, <i>A.D. Clift and M.A. Terras (Australia)</i>	421
Minimising soil erosion and runoff by maximising cropping opportunities, <i>C. Carroll, M. Littleboy and M. Halpin (Australia)</i>	427
OZCOT: A cotton crop simulation model for management, <i>A.T. Wells and A.B. Hearn (Australia)</i>	433
Adaptation of CLIMEX for spatial screwworm fly population dynamics, <i>D.G. Mayer, M.G. Atzeni and D.G. Butler (Australia)</i>	439
Sterile insect release method — Optimal strategies for eradication of screwworm fly, <i>M.G. Atzeni, D.G. Mayer and D.G. Butler (Australia)</i>	445
Dissipation of spatial closure benefits as a result of non-compliance, <i>D.J. Die and R.A. Watson (Australia)</i>	451
Modelling of dynamic management for decision support, <i>R. Monypenny (Australia)</i>	457
Using spatial land resource data and computer simulation modelling to evaluate sustainability of wheat cropping for a portion of the eastern Darling Downs, Queensland, <i>M. Littleboy, M.J. Grundy, M.J. Bryant, D.O. Gooding and B.W. Carey (Australia)</i>	463
Mathematical Methods	
Linking mathematics with applications: The comparative assessment process, <i>B. Anderssen (Australia)</i>	469
Testing and re-calibrating a simple model of daily rainfall for use in eastern Australia, <i>J.B. Robinson (Australia)</i>	477
On the use of extreme value distributions for predicting the upper percentiles of environmental quality data, <i>J. Bai, A.J. Jakeman and M. McAleer (Australia)</i>	483
Comparison of methods for simulation of two dimensional data honouring specified spherical semivariograms, <i>P.I. Brooker, G.C. Cock and M.A. Stewart (Australia)</i>	489
Non-parametric smoothing of almost annually periodic time series, <i>M.F. Hutchinson (Australia)</i>	495
The characteristics of dynamic systems via the Swept Sine Wave technique, <i>N. Haritos (Australia)</i>	501
Derivation of dynamic estimation equations by means of the Dirac delta function, <i>P.R. Benyon (Australia)</i>	507
A simulation approach to analysis of free replacement policies, <i>D.N.P. Murthy, B.P. Iskandar and R.J. Wilson (Australia)</i>	513

Econometrics

- Modelling in econometrics: The deterrent effect of capital punishment, *M. McAleer (Australia)* 519
- An application of optimal control analysis to the lifecycle model, *E. Aiyoshi and A. Maki (Japan)* 533
- Estimation of long-run responses in dynamic models with integrated data, *R. Bewley and D.G. Fiebig (Australia)* 539
- Bootstrap estimates of a new classical model of unemployment, *M. McAleer and J. Smith (Australia)* 545
- Housing purchase and saving behavior under unanticipated inflation, *M. Takase (Japan)* 551
- On the distribution of intra-daily exchange rate changes, *R. Bewley, P. Lowe and R. Trevor (Australia)* 557
- A study of various score test statistics for heteroscedasticity in the general linear model, *A.D. Hall (Australia)* 563
- The distribution of the full information maximum likelihood estimator, *K. Oya and K. Morimune (Japan / Australia)* 569
- MLE of some continuous time financial models: Some Monte Carlo results, *Y.K. Tse (Singapore)* 575

Environmental Models

- Economic modelling and Australian carbon dioxide emissions, *M.S. Common (Australia)* 581
- A global three-dimensional Lagrangian tracer transport modelling study of the sources and sinks of nitrous oxide, *J.A. Taylor (Australia)* 597
- Shoreface translation model: Computer simulation of coastal-sand-body response to sea level rise, *P.J. Cowell, P.S. Roy and R.A. Jones (Australia)* 603
- Groundwater modelling and optimal salinity control in the North Stirling Land Conservation District, Western Australia: A hydrogeological and economic perspective, *J. Gomboso and F. Ghassemi (Australia)* 609
- News of IMACS 615
